system

M 2
by Neo-Metro®

Model Shown: 8981-4-RL

Four Station Straight Front Washbasin with Integral Round Bowl

- **Straight Front Design Wash Basin**
- **Heavy Duty Stainless Steel Construction**
- **Available in 1, 2, 3 or 4 Station Configuration**
- **Available with -BKS Backsplash**
- **Available with -IS Integral Shelf Under Counter Sensor Operated Spout are aligned over each station**
- **Available with an Integral Round, D-Shaped, Rectangular Satin Finish (Standard) or Mira (High Polish)**
- **Available with J-Spout or L-Spout Not applicable with IS Deck Style**
- **Mixing Valve Included**
ASSE 1070 Compliant valve included unless -9 Option is selected where Customer will provide own Valves/Faucets.
- **P-Trap(s) Included**
One Waste Connection for up to 3 Basins
- **ADA, ANSI, ASA, CSA, UFAS Compliant**
- **GREENGUARD GOLD CERTIFIED FOR LOW EMISSIONS**

Stainless Steel Basins are Recyclable

DESCRIPTION	MODEL/OPTION #
A DECK TYPE - Required Selections	INIT.
<input type="checkbox"/> One Station Length: 24" (610 mm)	8981-1
<input type="checkbox"/> Two Station Length: 48" (1,219 mm)	8981-2
<input type="checkbox"/> Three Station Length: 72" (1,829 mm)	8981-3

Straight Front Washbasin

System M2 Stainless Steel Basins are engineered to combine design and durability.

Model 8981 Series Washbasins have straight fronts and are available in one, two, three or four station units. These units offer the look and feel of commercial-grade designer basins and counter tops

These units are fabricated of heavy-gage, type 304 satin finish stainless steel. Corners are fully welded and seamless. The units include a full length trap enclosure to conceal hot and cold mixing valve assembly and P-trap(s).

Hardware is supplied to secure the fixture to the wall.

Each standard height washbasin complies with ANSI, UFAS and ADA requirements. Please check your local plumbing codes.

-BKS Backsplash option features a 3" (76 mm) 60" back splash extending the entire length of the unit.

-IS Integral Shelf option features a shelf a 6" (152 mm) high x 9" (229 mm) shelf running the full length of the unit. An under shelf sensor operated spout is provided for each wash station. The sensors require a plug-in power supply.

Integral Bowls are offered with Round, D-Shaped or Rectangular Styles. Satin or Mira (high polish) finishes are also available with any of these styles.

Mixing Valve delivers tempered water flow by compensating for pressure and temperature fluctuations and is ASSE 1070 compliant. Valve is to be field set to 105° Fahrenheit and includes strainers and integral checks. Operating range is 30 to 100 PSI. (Not Included with unit when valving is by others)

-H Hand Operation includes a mixing valve with deck mounted metering Air-Control pushbuttons and deck mounted stainless steel tubular spouts (J-Spout or L-Spout) with a 0.5 GPM flow control.

-SO Sensor Operation includes individual solenoid valves activated by infrared sensors with a mixing valve and deck mounted stainless steel tubular spouts (J-Spout or L-Spout) with a 0.5 GPM flow control. The sensors require a plug-in power supply.

-PDM Pump Type Soap Dispenser (Option) is available for liquid and lotion type soaps. Dispensers are deck mounted with an under-the-counter reservoir and top refill feature for ease of maintenance. The dispenser is available in a Satin or Mira High Polish finish.

-HTR Electric Instant Water Heater (Option) is available and is designed to fit in trap cover. (Additional specifications needed).

-WRL/WRR Waste Receptacle (Option) provides an 18" extension on the left or right (must be specified) to accommodate a receptacle for trash. The receptacle features a under counter tilt-out access bin.
