ANNOUNCING NEO-METRO®'S NEW LUXURY BATH DÉCOR ITEM

SLAB

Clean Aesthetic

LOS ANGELES, CA – APRIL 12, 2009 – NEO-METRO®, designer and manufacturer of the Ebb Concept, announces the newest addition to its product line up of luxury bath décor: **SLAB**.

SLAB is a monolith – a seamless, linear, and artful basin of smooth, solid surface Blanco white. No embellishments, no steel, no visible supports. It's a clean pour into the desired shape of sink.

In Neo-Metro's world of custom hues, Pantone®-matched powdercoats and high-gloss or satin finishes, SLAB is a minimalist. Choose a right, center, or left offset; one or two basins. The unit is available in 36", 42" and 55" configurations (22" deep and 4" thick). Even with a single, unified construction, Neo-Metro still wants SLAB to be your own perfect design.

SLAB is wall-mounted with undetectable hardware, for a clean aesthetic and accessibility for all.

Neo-Metro's new SLAB basin is a Blanco white solid surface material and wall-mounted.

SLAB Configurations

55" Length w/ double 14"x17"x4" basins

55" Length w/ single 14"x17"x4" basin offset right

55" Length w/ single 14"x17"x4" basin offset left

42" Length w/ single 14"x17"x4" basin centered

36" Length w/ single 14"x17"x4" basin centered

36" Length w/ single 14"x17"x4" basin offset right

36" Length w/ single 14"x17"x4" basin offset left

All Slab configurations are 22" deep and 4" thick
Meets ADA if properly installed
