TANK INSTALLATION	9935-011-001
-------------------	--------------

INSTALLATION INSTRUCTIONS INSTALLING TOILET BOWL TO CLOSET FLANGE:

NOTE: Installation of toilet waste connection is comparable to china units.

- A- Center line of closet flange waste connection ① should be 12" from finished wall and flush with finished floor.
- B- Clean any construction debris out of floor flange, then install the mounting bolts ② into the side slots of floor flange.
- C- Place wax ring ③ centered on top of floor flange ①, pressing firmly into place.
- D- Remove access plates ⑥ from toilet housing both sides, exposing mounting holes for toilet. Lift toilet bowl and set onto wax ring ③, making sure the mounting bolts ② go thru mounting holes in base of toilet housing. apply pressure evenly all around toilet bowl to insure proper seal.
- E- Assure toilet is perpendicular to wall, adjust if necessary. Install nuts ④ and washers ⑤, tighten firmly and replace access plate ⑥ with mounting screws ⑦.
- F- For further instructions see drawing number 9935-011-001.
