72" - two-station  
96" - three-station

- All-in-one hand washing systems contain two sensors, one for washing and one for drying
- Eliminates water dripping on the floor, reducing risk of slips, falls and contamination
- ADA compliant

14-second dry time\*

Costs up to 76% less to run than other hand dryers.\*

Produces up to 79% less CO<sub>2</sub> than other hand dryers\*\*

### RECOMMENDED APPLICATIONS:

RESTAURANT  
PHARMACEUTICAL  
FOOD PREP  
MANUFACTURING  
COMMERICAL

HAACP INTERNATIONAL AND NSF CERTIFIED

## PROTOCOL P335 HYGIENIC COMMERCIAL HAND DRYERS

Dyson scientists asked public health specialists, NSF International, to define the criteria for a hygienic hand dryer. The study resulted in NSF Protocol P335. NSF Protocol P335 states that for a hand dryer to be hygienic, hands must be dried within 15 seconds.

Tested. Certified. Hygienic.

Up to 88% of unused paper towels tested in the U.S. contain bacteria which can transfer to your hands.

Angled to minimize splash, the offset drain helps minimize the spread of bacteria. 

## dyson airblade wash+dry

- Wash and dry hands at the sink
- 14 second dry time
- The most hygienic hand dryer
- Costs less to run\*
- Small carbon footprint\*
- Certified by NSF International
- Approved by HACCP International
- No water on the floor
- Saves space
- Touch-free operation
- Saves water
- Easy to service
- 5 year parts and 5 year limited labor warranty

**Less insurance claims  
due to no water  
on the floor.**
